
INSTALLATION FOR E-Z-GO® TXT/RXV

Remove factory seats and mount MadJax® Aviator Seats in factory mounting locations reusing factory seat hinges and hip restraints.

INSTALLATION FOR Yamaha® /ICON® Vehicles

Remove factory seats and mount MadJax® Aviator Seats in factory mounting locations reusing factory seat hinges and hip restraints.

INSTALLATION FOR Club Car® Vehicles

STEP 1

Remove factory seats. Retain factory hip restraints and seat hinges.

STEP 2

For the front seat back, locate the hardware pack. This includes (2) lower brackets and hardware to mount the brackets to the seat back.

STEP 3

Install the brackets with the larger opening facing downwards (as shown) and simply slide the seat into factory location. Bolt the seat in place using the upper holes.
